# My Friend Enola

By Rose Williams        Knitting Friends Designs

*My Friend Enola was my mother.  She did not do much knitting or crocheting but she enjoyed sewing.  She loved to volunteer at the local hospital and do charitable work.*

*Previously published as "I Love This Wrap"*

 **Materials:**  I think you could use any yarn and the appropriate size crochet hook.  For the blue wrap, I used 2 skeins (500 yds) worsted weight yarn and a size H hook.

**Stitches:**
*Cluster* - 3 double crochet in space indicated.
*Inc Cluster* -  cluster, ch1, cluster in space indicated.

**Directions:**
Chain 4     Slip stitch in first chain to form a circle or you can do a magic ring if you are familiar with that.

1.  Chain 3 (always counts as 1dc), 2 dc, ch1, 3dc(*Cluster*), ch1, 3dc (*Cluster*) in circle.   Turn

2.  Chain 3, 2dc between 1$^{st}$ and 2$^{nd}$ dc of previous row, [ch 1, *Inc Cluster* ] in next two ch1 spaces,  *Cluster* between last two dc of previous row.  Turn.

3.  Chain 3, *Cluster* in each ch1 space, ending with 1dc between last two dc of previous row.  Turn

4.  Chain 3, 2 dc in ch3 space of previous row, *Cluster* in each space, ending with 3dc in space before last dc of previous row.  Turn

5.  *(Increase row)*  Chain 3, *Inc Cluster* in each space, ending with 1 dc between last two dc of previous row.  Turn

6.  Repeat row 4  (*regular row*)

7.  Repeat row 3  (*regular row*)

*Now you can see a pattern forming,  The beginning of one round starts with a ch3 space and ends with a dc between the last two dc of the previous row  The next begins with  (ch3, 2dc) in the space created by the last dc of the previous row and ends with cluster in ch3 space of previous row.  From now on be sure to maintain this pattern along the edge.*

8. *(Increase row)*  Increasing in <u>every **other** space</u>.  Turn

9. – 12.  Work  **4**  *regular rows*  by repeating rows 3 and 4 with appropriate beginnings and endings.

13.  *Increase row*  increasing in <u>every **other** space</u>.  Turn

14. – 17.   Work  **4**  *regular rows* with appropriate beginnings and endings.

18.  *Increase row*  increasing in <u>every **third** space</u>.  Turn

19. – 22.   Work **4** *regular rows* with appropriate beginnings and endings.

23. *Increase row* increasing in every **third** space.  Turn

24. – 31.  Work **8** *regular rows* with appropriate beginnings and endings.

32. *Increase row* increasing in every **fourth** space.  Turn

33. - 40.  Work **8** *regular rows* with appropriate beginnings and endings.

41. *Increase row* increasing in every **fourth** space.  Turn

42. - 49.  Work **8** *regular rows* with appropriate beginnings and endings.

Continue working in this manner  until your shawl is as big as you want. You can leave the edge as is, or add any decorative edging  or fringe.  Be creative and enjoy.

Below are pictures showing how the rows develop.
